Dear Honorable Judge Martin Glenn,

First of all thank you for your service and taking the time to preside over this case. I have over \$25,000 worth of cryptocurrency deposited in a 'Custody' account with Celcius.

I strongly feel that Celcius, in particular Alex Mashinsky has lied to the community about the safety of our assets. I feel like I have been lied to and mislead. I am embarrassed that I have so much money tied up in what now seems to be a scam and mismanagement of funds. It has affected me personally and now have so much anger with myself for getting my family in this position.

All I hope for is that I can retrieve my cryptocurrency and can keep it in storage myself and avoid any future scams.

Thank you.
